## HONORS

Mar 2023 - Mar 2024

- **Hands on with python - NPTEL**

“Learn Python programming from scratch! Explore essential concepts like conditionals, loops, functions, and data structures. Dive into algorithms, problem-solving techniques, and file handling. Perfect for beginners!”

- **E - Business - NPTEL**

“This course aims to familiarize postgraduate and undergraduate students with essential concepts, tools, and strategies related to electronic business. Students will gain insights into the digital landscape, e-commerce practices, and effective online business models.”

- **Salesforce Virtual Internship**

The Salesforce Supported Virtual Internship Program is an initiative designed to help young minds in India build their careers within the Salesforce ecosystem. Through this program, participants gain hands-on industry experience and learn in-demand skills relevant to Salesforce. The internship offers specialized tracks for both Salesforce Administrators and Salesforce Developers. Eligible candidates connect with hiring partners and have access to career fairs, creating pathways for future job opportunities in this dynamic field

- **Google coursera cybersecurity certificate**

Upon completion, learners receive a shareable career certificate from Google, enhancing their LinkedIn profiles and job prospects
